Unless the word be correctly adopted from some foreign language, the second element must be connected with *swel gan* to swallow, absorb The earliest recorded form *gundæswelgæ* has the appearance of being f *grund* pus (see Ground), the resulting sense 'pus absorber' is plausible, as the chopped leaves of the plant are still (in country places) used in poultices for reducing abscesses. If this be the true etymology, the form *grundeswylge*, whence the mod word is descended, must be due to popular etymology, the word being associated with *grund* Ground *sb*, as if meaning 'ground swallower', with reference to the rapid spread of the weed There is however, an unexplained difficulty in the form of the first element (*gunde-* instead of the normal *gund*), and it cannot be positively affirmed that the form without the *r* is not a mistake, as the three glossaries in which it occurs are too closely related to be considered independent witnesses.]

Grundy[2] (grʌ ndi) [? Echoic. see quot 1840.] Granulated pig-iron

1840 b Mushet *Papers Iron & Steel* 12 Fifty years ago this process of granulation was carried on at the Cyfarthia iron works to some extent The iron so obtained was called grundy from the noise produced by the revolution of a large horizontal stone, placed in the water pit, on which the iron fell in its descent. 1881 in Raymond *Mining Gloss*

Grundy[3] (grʌ ndi) The surname of an imaginary personage (*Mrs Grundy*) who is proverbially referred to as a personification of the tyranny of social opinion in matters of conventional propriety

In Morton's play *Speed the Plough* (1798), Dame Ashfield is represented as constantly fearing to give occasion for the sneers of her neighbour, Mrs Grundy Her frequent question 'What will Mrs Grundy say?' became proverbial (prob with especial reference to the passage quoted below) as expressing the attitude of those who regard the disapproval of society as the worst of evils

1798 I Morton *Speed the Plough* II iii (1811) 29 *Dame Ashfield* If shame should come to the poor child (her daughter)—I say Tummas what would Mrs Grundy say then? *Farmer Ashfield* Dom Mrs Grundy, what wou d my poor wold heart zay? 1813 *Examiner* 15 Mar 17/2 What will Mrs. Grundy say? 1845 Hood *Open Question* 1 Now, really this appears the common cave Of putting too much Sabbath into Sunday—But what is your opinion Mrs Grundy? 1857 Locker *Lond Lyrics* (1874) 102 And many are afraid of God—And more of Mrs Grundy 1896 *Daily News* 26 Oct 6/3 Without the smallest regard for the Grundy tribe in office or out of it 1899 Miss Broughton *Game & Candle* 129 You do not mean to imply that Mrs Grundy is going to interpose between you and me?

In continental Teut the sense of 'guild' was expressed by a fourth formation from the same root, repr OTeut type **geldjan* wk fem and occurring as MLG , MDu *gelde* fem and neut (Du *gelde*), whence mod G *gilde* in Carolingian Lat this word appears as *geldonia* *gildonia* explained by *confraternitas* as the latter meaning Lat *gilda*, OI had *gildi*, *ghilde* *thende pede*, etc in the senses guild, band of foot soldiers

The root **geld* in these derivatives is prob to be taken in the sense 'to pay contribute' so that the sb would primarily mean an association of persons contributing money for some common object As however the root also means to sacrifice worship some have supposed the guild were so called in being combinations for religious purpose heathen or Christian

The sense member of a guild guild brother was expressed by OI *gildia* and *gezilda* MLG *gilde* wk masc the Teut word appears in med L as *gildo* (also *conjilda* *cmeildai*) and in OI *geld*, *geldon* (with many variants one of a company (*geldo*) of foot soldiers]

1 A confraternity, brotherhood, or association formed for the mutual aid and protection of its members, or for the prosecution of some common purpose

a *Primarily* applied to associations of medieval origin

The guilds mentioned in OI pre Conquest documents fulfilled much the same functions as the religious and benefit societies but their objects included the providing of masses for the souls of deceased members and the payment of *wergild* in cases of justifiable homicide They had always originally a strong religious element in their constitution Their meetings were apparently convivial (cf ON *gildi* banquet (CLEASBY) and *post* 1100 below) In later times the guilds of this social religious type under went development in various directions some becoming purely religious confraternities while others acquired secular rights and privileges, eventually developing into municipal corporations

The *guild of merchant's merchant guild* or *guild mercatoria* lats OF *hanse* or *hansa* *gild*, an incorporated society of the merchants of a town or city having exclusive rights of trading within the town is an institution which in Eng land has not been found before the Conquest on the Continent the name and thing were older In many English towns, and in the royal burghs of Scotland the merchant guild became the governing body of the town in Scotland the name of guild is still preserved (cf *Dean of Guild*) *Ibid*

The *trade guilds* which in England come into prominence in the 14th *c*, were associations of persons exercising the same craft formed for the purpose of protecting and promoting their common interests In some towns the representatives of these bodies superseded the older organizations as the municipal authority The trade guilds are historically represented in London by the Livery Companies, but these are not ordinarily known as guilds, and retain little of their original functions The trade guilds of mediæval Europe closely resemble the ancient Roman *collegia*, with which they may perh have been historically connected

II The coin so called, or its value

3 An English gold coin, not coined since 1813, first struck in 1663 with the nominal value of 20*s*, but from 1717 until its disappearance circulating as legal tender at the rate of 21*s* *Double guinea* a coin equal in value to two guineas *Spade guinea* a guinea of the pattern coined 1787–1800, so called from the form of the escutcheon on the reverse

In 1663 the Royal Mint was authorized to coin gold pieces of the value of 20*s* in the name and for the use of the Company of Royal Adventurers of England trading with Africa these pieces were to bear for distinction the figure of a little elephant and 44*s* of them were to contain 1 lb troy of 'our Crowne gold' The 20*s* pieces of the African company received the popular name of *guineas* almost as soon as they were issued, as being intended for use in the 'Cuinea trade and made of gold from Cuinea and the name was extended to later coins of the same intrinsic value As silver was the sole standard till 1816 the value of the guinea was from the first subject to market fluctuations according to the condition of the silver coin, which became so bad that the guinea rose as high as 30*s* in 1695 In Dec 1717 it was fixed at 21*s*, after which it underwent no further alteration The latest coinage of guineas took place in 1813 the *sovereign*, of the value of 20*s*, was first issued in 1817

Gun (gən), *sb* 1 forms 4-6 **gonne, gunne, gonn, 5 gownne, gune,** 6 **gon(e, gonn, goon(ne, 5 gonn, 5- gun** [ME *gunne gonne* (rimingwith *sonne* = sun) , hence already in 14-15th c the word was adopted as Welsh *gwn*, Irish (also Sc. Gaelic) *gunna*, Anglo L *gonna, gunna*
With regard to the ultimate etymology, a suggestion has been made by Prof Skeat that ME *gunne* may represent a hypocoristic form of a Scandinavian female name compounded with *Gunn-* This conjecture receives a strong confirmation from the fact (communicated to us by Mr W H Stevenson) that an account of munitions at Windsor Castle in 1330-1 (Exchequer Accts. Q R Bundle 18, no 34 Pub Rec Office) mentions una magna balista de corni quae vocatur Domina Gunilda There are other instances of the practice of be towing female personal names on engines of war but there was no distinguished lady named Gunilda (= ON *Gunnhildr* spelt *Gunnild* in Havelok) in the 14th c, and it seems highly probable that this use of the name may have come down from Scandinavian times, when its exceedingly appropriate etymology would be understood (both *gunnr* and *hild* r mean 'war ') If *Cunnihilde*, as is likely, was a name frequ ntly given to *ballts* a and the like it would naturally on the introduction of gunpowder, be given al o to cannon Indeed there is some appearance of evidence that an explosive engine was actually called by this name many years before the earliest recorded instance of the use of gunpowder in warfare The song against the retinues of the great people in *Pol Songs* (Camde) 237 which must have been written in the reign of Edw II, contains the following passage — The gedelynges were geslered *Of gonnvilde gnattis*, Pulefreoden and tuppes Ant boyes with boste Alle weren y haht Of an horse poste The correct translation of this passage which has hitherto been unexplained seems to be as follows — The lackeys were gathered out of Gunnild's spark (O[*gnist* see C NAST *sb*] the grooms and pages the varlets with their boasting all were hat hed of a horse s dung According to analogy the regular pet name in ON for *Cunnhildr* would be *Gunna* which would give *Gunne* in ME Rietz *Yr dial Ser* mentions *Gunna* a female Christian name still surviving in Swedish country districts (In Iceland *Gunna* is now common but it is taken to stand for *Gudrún*)
The other suggestions that have been made as to the origin of gun are not worthy of serious attention The assumed OF **mangonne* of which *gonne* has been supposed to be a shortening, is wrongly inferred from *mangonneau* Mangonn and is not philologically possible unless as a back formation from *mangonneau* *gonne* has also been derived before the 16th c and is re, ected by Littré as adopted from the Lat. *gun* The conjecture that ME *gunne* is of echoic origin perh involves no impossibility, but it has no positive support and little intrinsic probability]

Gy, Sc var Guy *sb*¹, var Guy *v*¹ *Obs*

Gy-, in words of Greek etymology, is in this Dictionary marked to be pronounced with (dʒ), in accordance with the general principle that in words of Gr derivation (but latinized spelling) Eng pronunciation follows the rule of the Romanic langs for the 'softening' of *c* and *g* The pronunciation (dʒ) is now practically universal in the case of those few words beginning with *gy-* that have much colloquial currency (*gymnasium, gymnast, gymnastic*), but with regard to the many less common words, chiefly scientific terms of recent origin beginning with *gymn-*, *gym-*, *gyro-*, there are many, especially among professional Greek scholars, who prefer the 'hard *g*' The (g) is very commonly heard in *misogynist*, somewhat frequently in *gypsum*, esp from mineralogists educated in Germany, and occasionally in *gyrate, gyration*

The orthoepists of the 18th c (Sheridan Nares, Walker) advocate the 'soft pronunciation in *gymnastic*, but admit that prevailing usage may be against them All the pronouncing Dicts of the 19th c have (dʒ) throughout, exc Infield, Jameson, and Cassell's Encyclopædic Dict the last named restricts the hard *g* to the *c* terms of science and of classical antiquities 'which have not passed, and probably will not pass, into general use

Gyv, obs form of Jew

Gyve (dʒaɪv), *sb* Chiefly *pl* Now *arch* or *poet* Forms *pl* 3, 6, 7 **gives**, (5 **gyvys**) 5–6 **guyv(i)es**, (7 **gieves**), 7–8 **guives**, 4- **gyves** *sing* 6 **gve**, 7 **guive**, 7- **gyve** [ME *gyve*, of obscure origin]

The alliteration in ME poetry shows that the word was originally pronounced with initial (g) and from the spelling *guive* it would appear that this pronunciation continued until the 18th c indeed it is indicated in the pronouncing Dicts of Sheridan (1780 and Scott (1797) The now prevailing pronunciation with (dʒ) is due to misinterpretation of the graphic form of a word that had become obsolete in oral use The form points to an OF **guive* (spelt *give* in *French Chron Lon* (1418 c) Prof Skeat suggests that this may represent an adoption of some derivative of the Teut root **wīsp* (OHG *wīsan* to wind round, LG *wisp*, a straw band) But the absence of any record of the word in continental OF constitutes a serious objection to this conjecture Can AF *guive* be an adoption of the synonymous ME and OE *wīððe*, the initial *w* being represented by *gu*, and the unfamiliar Eng dental spirant represented by *v*? If this suggestion be correct, Layamon used both the Eng and the Fr form of the word, cf with quot *c* 1205 below the following (line 22833 'Nimeð me þene ilke mon, and doð wiððe an his sweore')
